

## PRESS RELEASE

The weekend of October 2/3rd sees a full field of Super Trucks converge on Winton Raceway for the second round of the 2010 Super Truck Sprint Series. After what was an exciting opening round at Queensland Raceway competitors have been hard at work making modifications and fine tuning for the tight Victorian track. Several teams have made full rebuilds and have wasted no time in confirming their intentions. Truck racing stalwart Frank Amoroso returns along with Colin Dee Gee and local drivers Hayden Pullen and Adam Wronk pulling on their suits for what will be an action packed program. John Falk a long time competitor in Motorsport along with his company Tank world are providing the opportunity for one lucky spectator to ride beside him in his Super Truck for what will be a ride of a lifetime around the quick circuit. Judging from the spectators at the event in 2009 you will have to get in early for the best vantage point to witness what is one of the most exciting forms of circuit Motorsport available. Spectators have the opportunity to mingle in the pits with the teams and have autographs and photos or perhaps purchase some merchandise available from the teams. Our official photographer will be in the pits available for that special shot with your favourite truck and kids if you ask nicely you may be able to have your shot in the drivers seat of a Super Truck. In speaking to the track promoters the feedback is the track is in pristine condition and after the recent rain falls nice and clean and ready for action so get down to Winton and support real racing with a difference see you there.
